WELCOME

Beyond 100: The next century in Earth and Space Science

The 27th IUGG General Assembly will be held July 8-18, 2019 at the Palais des Congrès in Montréal, Québec, Canada. This is a special opportunity for participants from Canada and from around the world to come together and share their science and culture. 2019 marks the 100th anniversary of IUGG; we will look back on the accomplishments of the previous century of Earth and space science research, and forward to the next century of scientific advancement. Join us for a host of scientific activities, including special public lectures, keynote Union lectures and a wide variety of themed sessions.

During your stay, you will have the opportunity to explore the city of Montréal, widely renowned across North America and around the world for its vibrant cultural, social and culinary scene. July is a particularly good time to profit from warm weather, outdoor dining and the many festivals taking place across the city.

In conjunction with the IUGG General Assembly, a number of scientific workshops and cultural events are planned. We will also be offering the chance to explore the geological treasures of our region through a number of field trips ranging from half-day to multi-day excursions.

On behalf of the Local Organising Committee of IUGG2019, I welcome you to Montréal.

Fiona Darbyshire
Chair, Local Organising Committee, IUGG2019

BIENVENUE

Sciences de la Terre et de l'espace : un siècle de progrès, un autre à bâtir

La 27^e Assemblée générale de l'UGGI aura lieu du 8 au 18 juillet 2019, au Palais des Congrès de Montréal, dans la province de Québec, au Canada. Cette assemblée fournira l'occasion aux participants nationaux et internationaux de partager leur science et leur culture. Nous soulignerons le 100^e anniversaire de l'UGGI, mettant en perspective la recherche liée aux sciences de la Terre et de l'espace en revoyant les réalisations du siècle dernier et en rêvant celles du prochain. Joignez-vous à nous pour plusieurs activités scientifiques incluant des présentations destinées au public, des conférenciers invités de qualité et surtout, une grande variété de sessions sur des thèmes pertinents.

Pendant votre séjour, vous aurez l'occasion d'explorer la ville de Montréal, bien connue en Amérique du Nord et au niveau mondial pour sa culture, sa société ouverte et ses talents culinaires. En juillet, vous profiterez du beau temps et des nombreux festivals qui se déroulent dans la ville.

Conjointement avec l'Assemblée générale, nous offrirons des ateliers scientifiques et événements culturels. Vous aurez notamment l'opportunité d'explorer les trésors géologiques de notre région par des excursions sur le terrain, de durée variable allant de quelques heures à plusieurs jours.

De la part du comité organisateur local, je vous souhaite la bienvenue à Montréal.

Fiona Darbyshire

Chaire, Comité organisateur local, IUGG2019

LOCAL ORGANIZATIONS

CANADIAN GEOPHYSICAL UNION (CGU) / UNION GÉOPHYSIQUE CANADIENNE (UGC)

The CGU began its life as a society dedicated to the scientific study of the solid Earth. It has since evolved to cover all aspects of the physical study of Earth and space processes. Within the CGU, five semi-autonomous sections are defined: Hydrology, Geodesy, Solid Earth, Bio geosciences and Earth Surface Processes. CGU has over 400 members and serves as a national group in the geophysical sciences.

LOCAL ORGANIZATIONS

CANADIAN GEOPHYSICAL UNION (CGU) / UNION GÉOPHYSIQUE CANADIENNE (UGC)

The CGU began its life as a society dedicated to the scientific study of the solid Earth. It has since evolved to cover all aspects of the physical study of Earth and space processes. Within the CGU, five semi-autonomous sections are defined: Hydrology, Geodesy, Solid Earth, Bio geosciences and Earth Surface Processes. CGU has over 400 members and serves as a national group in the geophysical sciences. It is also responsible for the Canadian National Committee of the IUGG (CNC-IUGG). Since 2013, the CGU has operated as a co-founder and member of the Canadian Societies for the Geophysical Sciences (CSGS).

When registering for the IUGG2019 conference, please enter the rebate code and your **membership number** to receive a rebate of \$50.00. Both are available for members through CGU website once logged in (cgu-ugc.ca member login). You can become a CGU member through membership – application. [Click here](#)

CANADIAN METEOROLOGICAL AND OCEANOGRAPHIC SOCIETY (CMOS) / SOCIÉTÉ CANADIENNE DE MÉTÉOROLOGIE ET D'OCÉANOGRAPHIE (SCMO)

CMOS exists for the advancement of meteorology and oceanography in Canada. It is a national society whose aim is to promote these sciences across Canada, and its interests include meteorology, climatology, oceanography, limnology, hydrology and cryospheric science. The Society has a history spanning over 75 years, initially serving the meteorology community then adding the oceanography component in the 1970s. CMOS comprises over 700 members, and is also a co-founder and member of CSGS.

When registering for the IUGG2019 conference, please enter the rebate code and your **membership number** to receive a rebate of \$50.00. Both are available for members through CMOS website once logged in (cmos.ca – member login). You can become a CMOS member through membership – application. [Click here](#)

IUGG CODE OF CONDUCT POLICY

IUGG opposes any discrimination or harassment based on such factors as age, citizenship, disability, ethnic origin, gender identity, language, political or other opinion, religion, or sexual orientation. The IUGG General Assembly will follow the Anti-Harassment Guidelines (http://www.iugg.org/meetings/Anti_harassment_guidelines.pdf) to prevent any form of harassment or discrimination, and to ensure an inclusive atmosphere that encourages the free expression and exchange of scientific ideas and results.

All attendees of the IUGG General Assembly have a role to play in creating an inviting and harassment-free environment through their own behavior and by discouraging harassment and discrimination by others.

Behavior

- All attendees of the IUGG General Assembly are treated with respect and consideration, valuing a diversity of views and opinions.
- IUGG creates an environment at General Assemblies to allow for the professional exchange of information.
- Be considerate, respectful and collaborative. Communicate openly with respect for others, critiquing ideas rather than individuals.
- Avoid personal attacks directed toward other attendees, the local organizers or guests. Be mindful of your surroundings and of your fellow participants.
- Alert the local organizers if you notice a dangerous situation or someone in distress.

Unacceptable Behavior

- Discrimination, harassment or intimidation is unacceptable and will not be tolerated. The local organizers may take any action necessary and deemed appropriate (see below) if attendees engage in unacceptable behavior including removal from the General Assembly without warning or refund.

Unacceptable Behavior

- Discrimination, harassment or intimidation is unacceptable and will not be tolerated. The local organizers may take any action necessary and deemed appropriate (see below) if attendees engage in unacceptable behavior including removal from the General Assembly without warning or refund.
- Recording or taking photography of another individual's presentation without the explicit permission of the local organizers is not allowed.
- Disruption of talks at oral or poster sessions, Opening, Closing and Award ceremonies and receptions, in the exhibit hall or at other events organized at the General Assembly in the Palais des Congrès in Montréal or in other venues.

Reporting Unacceptable Behavior

- If you are the subject to unacceptable behavior or may have witnessed such behavior that violates professional and respectful participant conduct, please immediately notify the chairperson of the session if the incident has occurred during the meeting or local organizers.
- Notification can be done by contacting a local organizer on-site (e.g. at the registration desk) or you can e-mail your concern to secretariatugg2019@jpdil.com
- All reports will remain confidential.

Actions to prevent unacceptable behavior

- If a clear case of verbal discrimination, harassment or intimidation during a scientific session is established to have occurred, the Chairperson should act immediately to stop it. If the situation deteriorates, the Chairperson should ask the offender to leave the room.
- If any form of harassment occurs in a less openly visible way (e.g. during social activities or informal gatherings), the affected person and/or witness(es) should immediately report it to one of the organizers. The affected person has the option to pursue a formal procedure.
- In cases described above, the organizer should prepare written notes of the incident, attaching any evidence and identifying any witnesses. The organizer should then give the alleged offender the opportunity to be heard and to respond to the allegation.
- A full report of the incident should then be sent to the IUGG Assistant Secretary General / Executive Secretary, who will promptly report to the IUGG Officers any case of harassment that occurred during an IUGG General Assembly.
- The IUGG Officers will appoint an investigation board (typically composed of IUGG Executive Committee Members), which will evaluate the allegation and eventually conduct hearings with the parties involved. At the conclusion of the investigation the IUGG Executive Committee may decide to take disciplinary actions with respect to the person involved. Retaliation of any form is strictly prohibited.
- Harassment incidents or behavior that occur outside IUGG activities referred to above will be considered only when a formal investigation of the case has been conducted by the relevant authority (e.g. the institution, to which the individual is affiliated) and made known to the IUGG Executive Committee. In those cases that involve an IUGG or Association officer, the Executive Committee may decide to take disciplinary actions against that person.

JPdL International

JPdL is our Conference Organiser and strategic partner for IUGG2019. It is a national company with 6 offices across Canada and over 35 years of experience in conference management, event planning and destination management. It manages both national and international events across a wide range of fields and disciplines, and is partnered with numerous organisations from the local to the international level.

JPdL International (official Housing Bureau) has negotiated preferential rates for the participants of the 27th IUGG General Assembly. Accommodation should be booked through the IUGG Congress Housing Bureau – JPdL International.

The IUGG Congress Housing Bureau – JPdL International

is now open for room reservations. When registering for the conference you can book your hotel accommodation. If you require assistance, please contact us: secretariatIUGG2019@jpdL.com

Warning regarding Non-Official Housing Services (Housing “Pirates” Warning)

Room pirating is a practice carried out by third-party companies that act as travel agencies to solicit attendees and exhibitors for room reservations. Please be vigilant if approached by any company. All hotel bookings are recommended to be done through the official housing provider appointed by IUGG for the 27th General Assembly, JPdL International.

JPdL is unable to guarantee the quality and reliability of any other accommodation service, nor will be able to assist you should you have difficulties when using other providers.

The following hotels are offered by the – IUGG Housing Bureau – JPdL International

- Rates are based on single/double occupancy. Triple or Quad occupancy will have a supplementary charge.
- All hotel rates are quoted in Canadian Funds and are subject to all applicable taxes. The following taxes are not included in the room rate and are subject to change without notice (on a per room, per night basis): 3.50% Lodging tax, 5.00% Federal goods and services tax, 9.975% Provincial sales tax.
- Rates are based on single/double occupancy. Triple or Quad occupancy will have a supplementary charge.
- Taxes are not included in the room rates listed and are subject to change without notice (on a per room, per night basis)

Zéro 1

Discover a stylish urban oasis at Hotel ZERO1, an independent hotel in downtown Montréal's vibrant Quartier des Spectacles neighborhood. Located next to Chinatown and the business district, Hotel ZERO1 is a short walk from the Montréal Convention Centre, charming Old Montréal and hip bars and restaurants on Saint-Laurent Boulevard.

Our unique hotel has mastered the art of combining bold design with modern comfort. Each of Hotel ZERO1's 165 guestrooms and suites includes a flat-screen TV, plush pillow-top bed, kitchenette and lovely views of the surrounding city. Complimentary Wi-Fi and sleek worktables also make it easy to stay connected and productive throughout your stay.

Standard Room (1 Queen bed)

\$190 per night/room

Single or Double Occupancy

Wi-Fi included

UQAM Residence Ouest

West Lodge Apartment Hotel (Résidences UQAM Ouest) has the following amenities: laundry room and multilingual staff. There are 4 meeting rooms. Free high-speed wireless Internet is available. This apartment hotel is located in Montréal and also offers the following facilities: TVs and pool tables in the common areas and an elevator. Parking is available on site with a surcharge.

Standard Room (Double bed)

\$94 per night/room

Single or Double Occupancy

Wi-Fi included

McGill Carrefour Sherbrooke

475 Rue Sherbrooke O, Montréal, QC H3A 2L9

Carrefour Sherbrooke located in the heart of Montreal's downtown area on Sherbrooke Street West, provides hotel-style accommodations. Guests will find first class shopping, restaurants and art galleries, outdoor cafés and street festivals all at walking distance.

McGill Carrefour Sherbrooke

475 Rue Sherbrooke O, Montréal, QC H3A 2L9

Carrefour Sherbrooke located in the heart of Montreal's downtown area on Sherbrooke Street West, provides hotel-style accommodations. Guests will find first class shopping, restaurants and art galleries, outdoor cafés and street festivals all at walking distance.

\$115 CAD (single or double occupancy)

Includes free Wi-Fi and breakfast

HOTEL McGill NEW RESIDENCE HALL

3625 Park Ave, Montréal, QC H2X 3P8

New Residence Hall is just steps away from the downtown business core, as well as numerous art galleries, museums, the metro system (subway), Montreal's world-famous underground shopping centers, and fabulous entertainment and restaurants.

\$124 CAD (single or double occupancy)

Includes free Wi-Fi and breakfast

To book at one of the McGill Residences please follow the instructions below:

1. Click on the following link to start <https://www.mcgill.ca/accommodations/summer>
2. Click on Reservation request form (May 15 through August 15)
3. Fill the request form and submit

NOTE: Make sure that under comments you mention you are attending IUGG so you get the conference rate applied to your reservation.

4. The McGill Housing and Hospitality Services will confirm your reservation and send you a confirmation of your booking within the next 24 to 48 hours.

NOTE: Should you not receive your confirmation you can contact them by email to reserve.residences@mcgill.ca or by phone to 514-398-5433

ZUM HOTEL

ZUM HOTEL

2450 Edouard Montpetit Blvd, Montreal, QC H3T 1J4

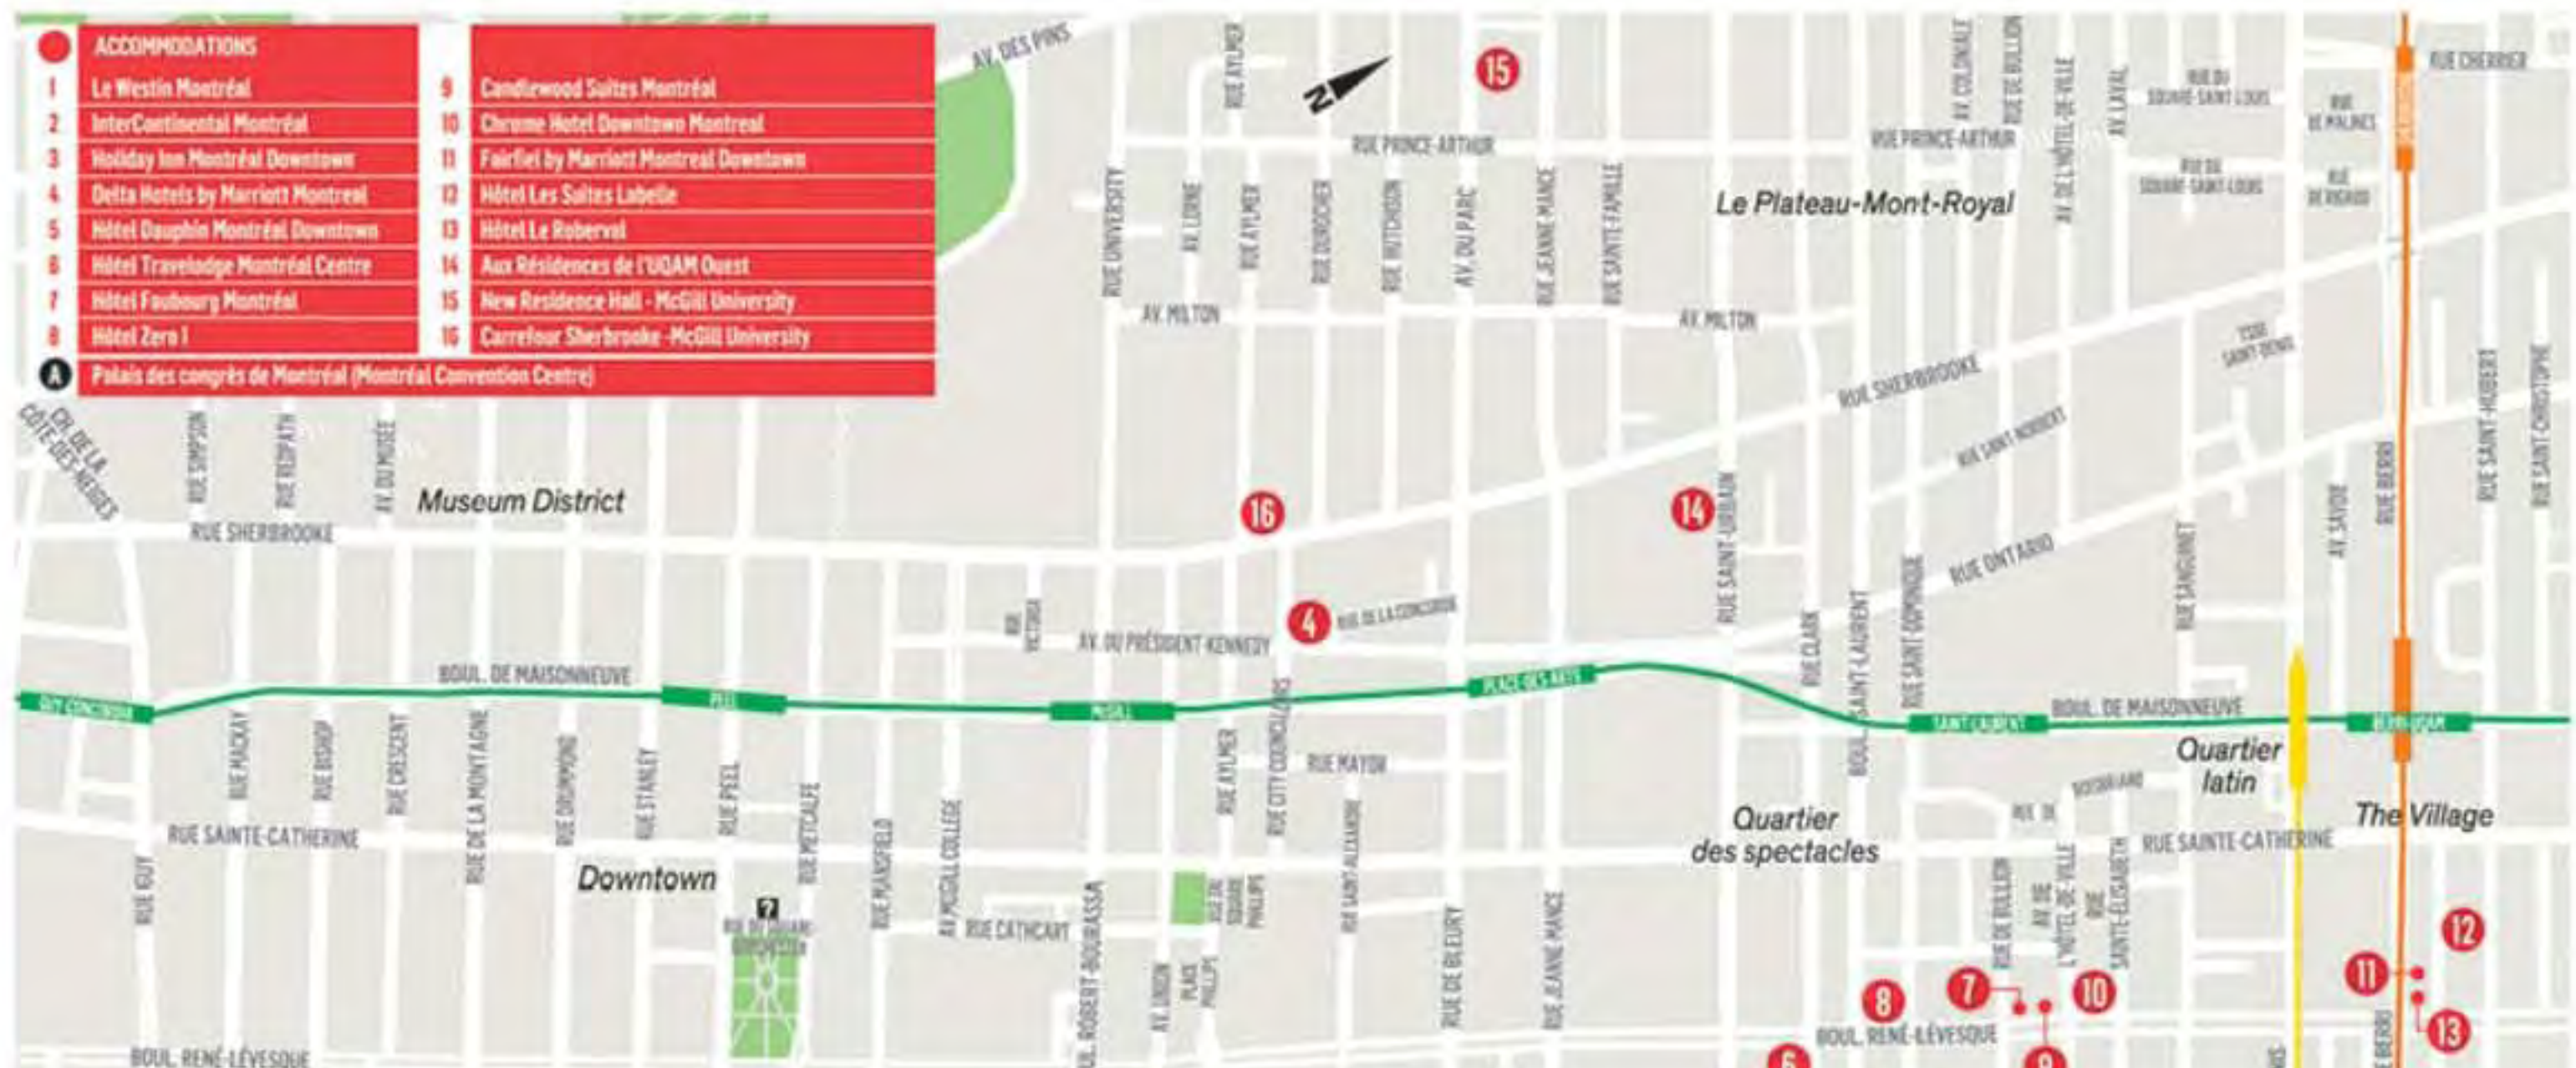

Located on the University of Montréal campus, this eco-friendly hotel is 6 minutes' walk from the Édouard-Montpetit Subway Station and 20 minutes' bus ride from Downtown Montreal.

Start at 40\$ per night/room

WiFi is complimentary in common area. Internet in room is an additional charge (\$)

Shared bathrooms

MEDIA

On behalf of the IUGG2019 Local Organising Committee, I welcome you to the 27th General Assembly of the International Union of Geodesy and Geophysics, held in Montréal, Canada in July 2019.

The International Union of Geodesy and Geophysics (IUGG) is a non-governmental scientific organisation, one of 40 that make up the International Science Council (ISC). Its mandate covers a diverse range of scientific studies of the Earth, including solid-Earth dynamics, earthquakes and volcanoes, the hydrological cycle including snow, ice and glaciation, atmospheric and ocean sciences, and the Earth's magnetic and gravitational fields.

Every four years, the IUGG holds a General Assembly, where scientists from these different disciplines meet to present and discuss the most important issues that are covered in their research, and the value of this research to society. Topics are wide-ranging and the research cutting-edge, including: climate change and its impacts on water availability, plastic waste and ocean life, the causes and impacts of tsunamis, ice-sheet melt and sea-level rise, damaging earthquakes, impacts of pollution on ecosystems, and many others.

Montréal was chosen as the venue for the 27th General Assembly, which also marks a special anniversary – the centennial celebration – for the IUGG. This year, the Assembly will be hosted by two Canadian scientific societies, the Canadian Geophysical Union (CGU) and Canadian Meteorological and Oceanographic Society (CMOS).

Join us at the Palais des Congrès, Montréal, for 9 days of scientific symposia, keynote presentations, awards, special lectures, a public documentary screening and panel discussion, and a wide range of scientific workshops.

Fiona Darbyshire

Local Organising Committee Chair, IUGG2019.

The Press Room will be located in room 515B of the Palais des Congrès.

SUMMARY OF MEDIA AND COMMUNICATIONS HIGHLIGHTS

The International Association of Geodesy and Geophysics (IUGG) is the main organization that brings together scientists from 8 associations focused on specific fields of research, from around the world for a General Assembly every four years. The 8 associations are:

- International Association of Cryospheric Sciences (IACS)
- International Association of Geodesy (IAG)
- International Association of Geomagnetism and Aeronomy (IAGA)
- International Association of Hydrological Sciences (IAHS)
- International Association of Meteorology and Atmospheric Sciences (IAMAS)
- International Association for the Physical Sciences of the Oceans (IAPSO)
- International Association of Seismology and Physics of the Earth's Interior (IASPEI)
- International Association of Volcanology and Chemistry of the Earth's Interior (IAVCEI)

The IUGG 2019 General Assembly is the 27th, and 2019 marks the 100th anniversary of IUGG, with the theme "Beyond 100: The next century in Earth and Space Science". As part of IUGG 2019, there will be 9 days of scientific sessions and workshops split up into more than 200 thematic symposia (9th-17th July), with almost 4000 scientists from 90 countries discussing cutting edge Earth and Space Science research. Topics covered will be wide-ranging, including:

- climate change impacts on water availability
- plastic waste and ocean life
- causes, likelihoods and impacts of tsunamis
- ice sheet melt and sea level rise
- climate change and maritime and weather risks
- damaging earthquakes
- impacts of pollution on ecosystems

Specific highlights of interest to the media and public will be published shortly, and the full searchable scientific program can be found here:

https://www.czech-in.org/cmPortalV15/CM_W3_Searchable/iugg19/normal#!sessionschedule

In addition to the scientific sessions and workshops, there will be several notable events during IUGG 2019, including:

- **The Union Lectures**

Leading experts representing the IUGG and each of the 8 associations will be providing insights and societal challenges specific to their fields, in 30-minute presentations taking place from 10:30am-12:00pm on July 11th, 13th, and 15th.

See: <http://iugg2019montreal.com/union-lectures.html>

- **Public Lecture: the Canada C3 – Coast to Coast to Coast Documentary**

A film about the Canada C3 project, highlighted by a 150-day ship-based expedition around Canada's coast, will be shown in English and French, followed by a bilingual roundtable on July 9th from 7:00-8:30pm.

See: <http://iugg2019montreal.com/union-lectures.html>

Also see the organization website: <https://canadac3.ca/en/homepage/>

- **IUGG Gold Medal Recipient Lecture**

W. Richard Peltier, from the Department of Physics, University of Toronto, will be awarded the IUGG Gold Medal, for "his scientific contributions that have been pioneering and profound in deep earth physics and climate system processes, and for his unselfish contributions to international scientific collaboration". He will be giving a special Gold Medal Lecture on glaciers and climate on July 17th from 2:00-3:00pm.

See: <http://iugg2019montreal.com/iugg-gold-medal-lecture.html>

- **The Prince Albert I Medal recipient for 2019 and Albert I Memorial Lecture**

Corinne Le Quéré, Professor of Climate Change Science, University of East Anglia, will be awarded The Prince Albert I Medal by the International Association for the Physical Sciences of the Oceans (IAPSO) for "for her fundamental contributions to our understanding of ocean biogeochemistry and global carbon cycling, and her work to quantify the ocean's role in the uptake of global carbon emissions". She will be giving a special Albert I Memorial Lecture at the IAPSO award ceremony on 12th of July, from 5:00-6:00pm.

See: <http://iugg2019montreal.com/p.html>

Also see the IAPSO website: <http://iapso.iugg.org/medals-and-awards/the-prince-albert-i-medal>

- **Celebrating 100 Years of Volcanic Activity: 1919-2019**

The International Association of Volcanology and Chemistry of the Earth's Interior (IAVCEI) will celebrate their centennial with a dedicated entire day of invited talks aimed at highlighting the progresses of volcanology over the last 100 years. Invited talks will cover advances in our understanding of how volcanoes work, crisis management, and the impacts of eruptions on weather and climate. Talks will take place on 12th of July from 8:30am-6:00pm.

MÉDIAS

Au nom du comité d'organisation local IUGG2019, je vous souhaite la bienvenue à la 27e assemblée générale de l'Union internationale de géodésie et de géophysique, tenue à Montréal (Canada) en juillet 2019.

L'Union Géodésique et Géophysique Internationale (UGGI) est une organisation scientifique non gouvernementale, l'une des 40 qui composent le Conseil scientifique international (ISC). Son mandat couvre un large éventail d'études scientifiques sur la Terre, notamment la dynamique de la Terre solide, les séismes et les volcans, le cycle hydrologique, y compris la neige, la glace et la glaciation, les sciences de l'atmosphère et de l'océan, ainsi que les champs magnétiques et gravitationnels de la Terre.

Tous les quatre ans, l'UGGI tient une assemblée générale au cours de laquelle des scientifiques de ces différentes disciplines se réunissent pour présenter et débattre des questions les plus importantes abordées dans leurs recherches et de la valeur de ces recherches pour la société. Les sujets abordés sont variés et à la pointe de la recherche, y compris: le changement climatique et ses impacts sur la disponibilité de l'eau, les déchets plastiques et la vie marine, les causes et les impacts des tsunamis, la fonte de la banquise et l'élévation du niveau de la mer, les tremblements de terre dommageables, l'impact de la pollution sur les écosystèmes, et bien d'autres.

Montréal a été choisie pour accueillir la 27e Assemblée générale, qui marque également un anniversaire spécial - la célébration du centenaire - de l'UGGI. Cette année, l'Assemblée sera organisée par deux sociétés scientifiques canadiennes, l'Union Géophysique Canadienne (UGC) et la Société Canadienne de Météorologie et d'Océanographie (SCMO).

Rejoignez-nous au Palais des Congrès, à Montréal, pour 9 jours de symposiums scientifiques, de présentations, de prix, de conférences spéciales, de projection de documentaire public et de table ronde, ainsi que de nombreux ateliers scientifiques.

Fiona Darbyshire

Président du comité d'organisation local, IUGG2019.

La salle de presse sera située dans la salle 515B du Palais des Congrès.

SOMMAIRE DES POINTS PRINCIPAUX AU SUJET DES MÉDIAS ET DES COMMUNICATIONS

L'Union Géodésique et Géophysique Internationale (IUGG) est la principale organisation qui réunit des scientifiques de 8 associations spécialisées dans des domaines de recherche spécifiques, réunis dans le monde entier pour une assemblée générale tous les quatre ans. Les 8 associations sont:

- Association Internationale des Sciences Cryosphériques (AISC)
- Association Internationale de Géodésie (AIG)
- Association Internationale de Géomagnétisme et d'Aéronomie (AIGA)
- Association Internationale des Sciences Hydrologiques (AISH)
- Association Internationale de Météorologie et des Sciences de l'Atmosphère (AIMSA)
- Association Internationale des Sciences Physiques de l'Océan (AISPO)
- Association Internationale de Sismologie et de Physique de l'Intérieur de la Terre (AISPIT)
- Association Internationale de Volcanologie et de Chimie de l'Intérieur de la Terre (AIVCIT)

L'Assemblée générale de l'UGGI 2019 sera la 27ième et 2019 marquera le 100e anniversaire de l'UGGI sur le thème «Au-delà de 100 ans: le prochain siècle des sciences de la Terre et de l'espace». Dans le cadre de l'UGGI 2019, il y aura 9 jours de sessions scientifiques et d'ateliers divisés en plus de 200 colloques thématiques (du 9 au 17 juillet), avec près de 4 000 scientifiques de 90 pays discutant de recherches de pointe en sciences de la Terre et de l'espace. Les sujets abordés seront variés, notamment:

- impacts du changement climatique sur la disponibilité de l'eau
- déchets plastiques et vie marine
- causes, probabilités et impacts des tsunamis
- fonte des glaces et élévation du niveau de la mer
- changement climatique et risques maritimes et météorologiques
- tremblements de terre dommageables
- impacts de la pollution sur les écosystèmes

Des points clés présentant un intérêt particulier pour les médias et le public seront publiés prochainement. Le programme scientifique complet est disponible ici:

https://www.czech-in.org/cmPortalV15/CM_W3_Searchable/iugg19/normal#!sessionschedule

En plus des sessions scientifiques et des ateliers, il y aura plusieurs événements marquants au cours de l'IUGG 2019, notamment:

- **Les conférences de l'Union**

Des experts de premier plan représentant l'UGGI et chacune des 8 associations apporteront des éclaircissements et des défis de société spécifiques à leur domaine, au cours de présentations de 30 minutes qui auront lieu les 11, 13 et 15 juillet de 10h30 à 12h00.

Voir: <http://iugg2019montreal.com/union-lectures.html>

- **Conférence publique: le documentaire Canada C3 - Documentaire d'un océan à l'autre**

Un film sur le projet Canada C3, illustré par une expédition de 150 jours sur les côtes canadiennes, sera projeté en anglais et en français, suivi d'une table ronde bilingue le 9 juillet de 19h à 20h30.

Voir: <http://iugg2019montreal.com/union-lectures.html>

Consultez également le site Web de l'organisation: <https://canadac3.ca/en/homepage/>

Voir: <http://iugg2019montreal.com/union-lectures.html>

Consultez également le site Web de l'organisation: <https://canadac3.ca/en/homepage/>

- **Conférence des récipiendaires de la médaille d'or de l'UGGI**

W. Richard Peltier, du Département de physique de l'Université de Toronto, recevra la médaille d'or IUGG pour ses "contributions scientifiques pionnières et profondes dans les processus de la physique des terres profondes et du système climatique, ainsi que pour sa contribution désintéressée à la collaboration scientifique internationale". Il donnera une conférence spéciale sur les glaciers et le climat le 17 juillet de 14h à 15h.

- **Célébration du centenaire de l'activité volcanique: 1919-2019**

L'Association Internationale de Volcanologie et de Chimie de l'Intérieur de la Terre (AIVCIT) célébrera son centenaire avec une journée entière de conférences invitées visant à mettre en lumière les progrès de la volcanologie au cours des 100 dernières années. Les conférences invitées couvriront les avancées dans notre compréhension du fonctionnement des volcans, de la gestion de crise et des impacts des éruptions sur le temps et le climat. Les discussions auront lieu le 12 juillet de 8h30 à 18h00.
